ABOUT ME

A highly adaptable and innovative problem-solver with a strong technical foundation, I excel at leveraging AI-driven solutions, automation, and strategic thinking to enhance efficiency, productivity, and user experience.

PROJECTS

AI360Hub Website - Html, Css, Node Js, Gemini API   Oct 2020 - present

- **Revolutionized Efficiency & Productivity**: By automating text conversion, email drafting, and time complexity analysis, the project eliminates manual effort, accelerates workflows, and enhances accuracy. Tools like ANSWER2ACRO, TONE BLENDR, and EMAILCRAFTIFY enable seamless communication, ensuring clearer messaging and faster decision-making.
- **Transformative Time & Resource Optimization**: The AI-driven solution significantly reduces repetitive tasks, allowing users to focus on high-impact work. This leads to better resource allocation, improved scalability across industries, and a more user-friendly experience, making advanced technology accessible to a wider audience.

InteriorDesign - Android Studio   Jan 2019 - Sept 2020

- **Seamless User Experience & Accessibility**: With features like image capture, selection, and asynchronous content generation, the app ensures an intuitive, efficient, and user-friendly interface, making professional-level design assistance accessible to everyone
